

## *Silicaid<sup>®</sup> AF-1 / Silicaid<sup>®</sup> SE-2*

### **Kosher Antifoams**

SILICAID<sup>®</sup> AF-1 & SE-2 are special silicone antifoam products produced under the supervision of the Rabbinat of Raanana & are Kosher Certified.

#### **Characteristics:**

SILICAID<sup>®</sup> AF are silicone based antifoam emulsions.

SILICAID<sup>®</sup> AF were specially developed for controlling foams in aqueous systems and for the use in food and drugs processing, under:

**Federal German Food Regulations acc.5, Paragraph 1, No.1, dated: 15.8.77 .**

SILICAID<sup>®</sup> AF offers special advantages in the destruction of aqueous foams wide pH range (pH1 pH12).

#### **Product Properties:**

	<b>Silicaid SE-2</b>	<b>Silicaid AF-1</b>
Supplied as	22% emulsion	12% emulsion
Appearance	Milky white	Milky white
Emulsifier	Non-ionic	Non-ionic
Max. dilution	1 : 200,00	1 : 100,000
Diluents	Water	Water

#### **Shelf Life:**

SILICAID<sup>®</sup> AF has a shelf life of at least 6 months if stored in tightly closed original container.

#### **How to Use:**

SILICAID<sup>®</sup>AF intended specially for use to control foam in aqueous systems between pH of 1-12. While using in the food industry (were permitted by local regulations) care should be taken that the maximum content in the final food / drug will not pass 50 ppm for SE-2 & 100 ppm for the AF-1.

#### **Safety Instructions:**

Please consult SILICAID<sup>®</sup> AF MSDS

#### **Packaging**

Standard: Minibulk 1000l, Drum 200l, Container 25l.

Other sort of packaging can be used in order to meet specific customer requirements.
